

{{contact.first_name}},

You've got the blueprint. Now you need the platform. And here's where most people freeze: "Which ClickFunnels package do I pick?" Let me make this easy.

****If you want to test before committing → [14-Day Free Trial](#)**** - Cost: \$0 - You'll know: Does this work for my funnel idea? - Best for: New builders who need proof

****If you want done-for-you templates → [PLR Funnels](#)**** (PLR FUNNELS LINK) - Cost: Included in some plans - You'll get: 100+ pre-built, high-converting funnels - Best for: People with no funnel-building experience

****If you want structure + a deadline → [One Funnel Away Challenge](#)**** (ONE FUNNEL AWAY LINK) - Cost: Investment varies by tier - You'll get: 30-day guided build with daily training - Best for: Builders who need accountability

****If you want flexibility on a budget → [\\$99 For 3 Months](#)**** (3-MONTHS FOR \$99 LINK) - Cost: \$99 total (yes, three months) - You'll get: Full ClickFunnels access - Best for: Explorers who want to test multiple approaches

****If you want my personal system → [All In Program](#)** (ALL IN LINK) - Cost: \$997 - You'll get: Everything + my templates + priority support - Best for: Founders committed to launching THIS year The Sovereign Launch Blueprint works with any of these.**

But here's what separates winners from "I'm going to start next month" people: They pick one. Today. They don't compare anymore. They don't overthink. They just start building.

So, pick your path above. Click the link. Get started. The blueprint is sitting there waiting for you. {{contact.first_name}}, 24 hours from now I'm sending you a case study of someone who picked one of these paths and the exact results they got. (Spoiler: Their first funnel made \$4,200.) But you won't benefit from that if you haven't started yet. Pick now. Build today. Results tomorrow.

P.S. - The 14-day free trial is genuinely free. No credit card. Try it, build with the blueprint, and decide from there. That's what I'd do.
