

Hi {{contact.first_name}},

You just grabbed the Sovereign Launch Blueprint—and I have to tell you, what you're about to do with it depends on one critical decision. I know that might sound dramatic. But after watching hundreds of entrepreneurs use this blueprint, I've noticed something: ****The fastest ones don't build their launch the same way.**** Some use a testing approach. Others go all-in. Some outsource it. Some run it themselves. And here's the thing—there's no "wrong" choice. But there IS a choice that matches **your** exact situation right now.

That's why I created four different paths inside ClickFunnels. Each one is designed for a different type of Realms 2 Riches founder:

****Path #1: [The 14-Day Test Drive](#)****

This is for anyone who says "I want to prove this works before I commit." You get two weeks free. No credit card. Test the entire system, build your blueprint funnel, and if you love it (spoiler: you will), you know exactly what you're paying for. Most people upgrade to something bigger after this.

****Path #2: [The PLR Funnels Fast-Track](#)****

This is for the person who's thinking "I want done-for-me funnels I can customize." You get access to pre-built, high-converting funnel templates that work across 100+ industries. You pick your niche, customize the copy, and you're live. This is the "I don't want to build from scratch" option.

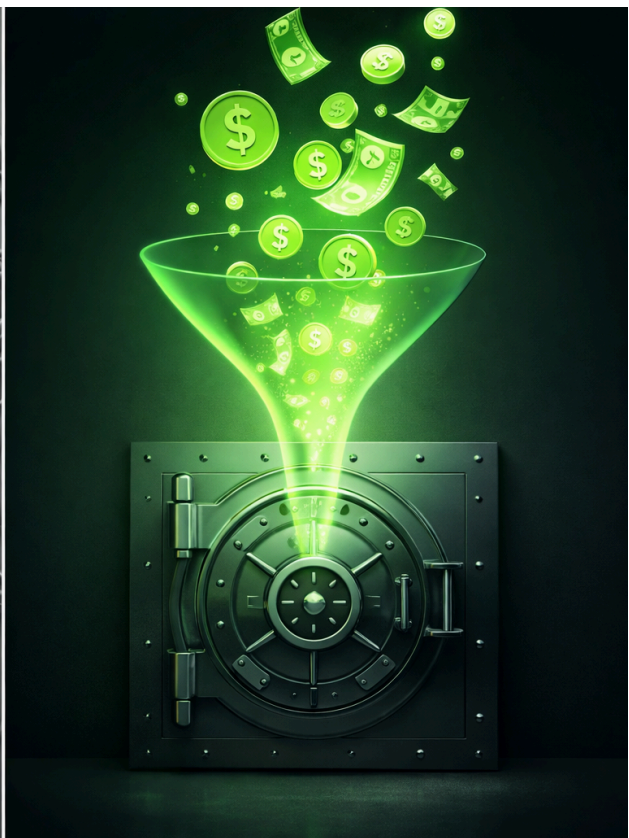

****Path #3: [The One Funnel Away Challenge](#)****

This is exactly what it sounds like—a guided challenge where you build ONE funnel while getting training on the psychology, copywriting, and strategy that makes it convert. You'll have a done-in-30-days funnel that actually makes money. It's structured, it's fast, and you're not going in blind.

****Path #4: [The \\$99 For 3 Months Snapshot](#)****

This is the "I want a full month of ClickFunnels to explore everything without breaking the bank" move. Three months for \$99 is basically me paying you to try ClickFunnels. You get the full feature set. You can test PLR funnels, build from scratch, run the challenge—all of it. No limitations. Just low commitment.

****And then there's Path #5: [The All In \(\\$997\)](#)****

This is for anyone who's saying "I'm ready to stop dabbling and build my Realms 2 Riches empire NOW." You get everything: advanced training, my personal funnel templates, priority

support, and access to our community of builders who are doing this at scale. This is the "I'm committed" package.

Here's what I want you to do: Look at where you are RIGHT NOW: - Are you testing? → Path #1 or #4 - Are you busy? → Path #2 - Do you need structure? → Path #3 - Are you ready to go all-in? → Path #5 Pick your path.

Open the Sovereign Launch Blueprint. Start building. The blueprint works in all five. The only difference is how much support and how many pre-built systems you get. Which path feels like yours? {{contact.first_name}}, I'll follow up in a couple days with specific case studies of people who picked each path and what happened. But for now—just know you have options, and they all lead to the same destination. Your move.
